To whom it may concern,

LETTER OF REFERENCE

This letter serves to confirm that On-Site Training is our preferred supplier for all our computer training such as Excel and other Microsoft packages. On-Site Training accommodated all our needs and were very professional. The On-Site Training staff are always in communication with me and are just generally wonderful people to work with.

The training manuals are user-friendly and the facilitator's are great. Our staff thoroughly enjoy the courses that they attend.

If you have any further queries please do not hesitate to contact me on (011) 266 7043.

Regards,

Kirsten Gray
