To whom it may concern

LETTER OF REFERENCE

This serves to confirm that On-Site Training is an extremely professional company, with very high standards of training in quite a number of computer applications.

I have always found the staff to be courteous, well-trained and always willing to assist with whatever request you may have.

I would recommend their services to anyone at any time, as they only deliver good service!

Kind regards

A handwritten signature in blue ink, appearing to read "Lauren Moore".
